

Playback from NVR

Description

Please follow the steps below in order to access Playback from the NVR

Prerequisites

- NVR
- [HDD installed](#)

Step by Step Instructions

1. From the Main Menu click, "Search"

2. On the right hand side, there will be a calendar. Click on the day that you wish to play back video.

Select which camera you would like to playback (with higher resolution cameras 4MP and above, the amount of cameras you can playback at the same time is limited, if you reach this limit it will show the "over decode ability" error)

- Days that are shaded a lighter color blue have recordings.
- Days that are dark blue do not have recordings.

3. Double click on the graph below to begin playing back video.
