

How to Format HDD

Description

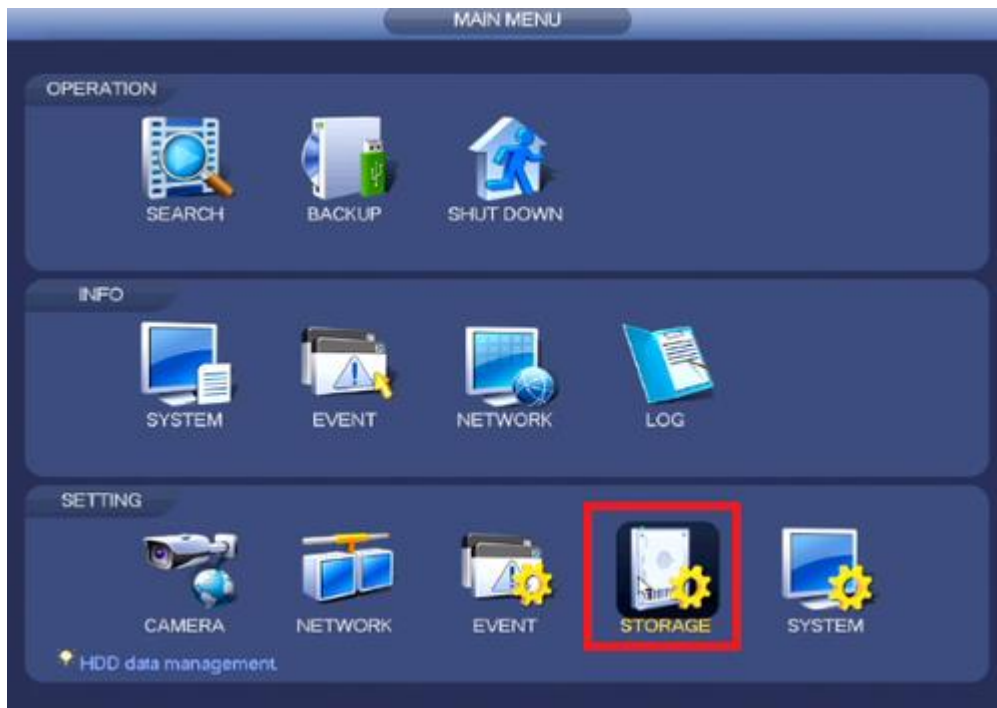

Formatting HDD completely wipes all footage on a hard drive

Prerequisites

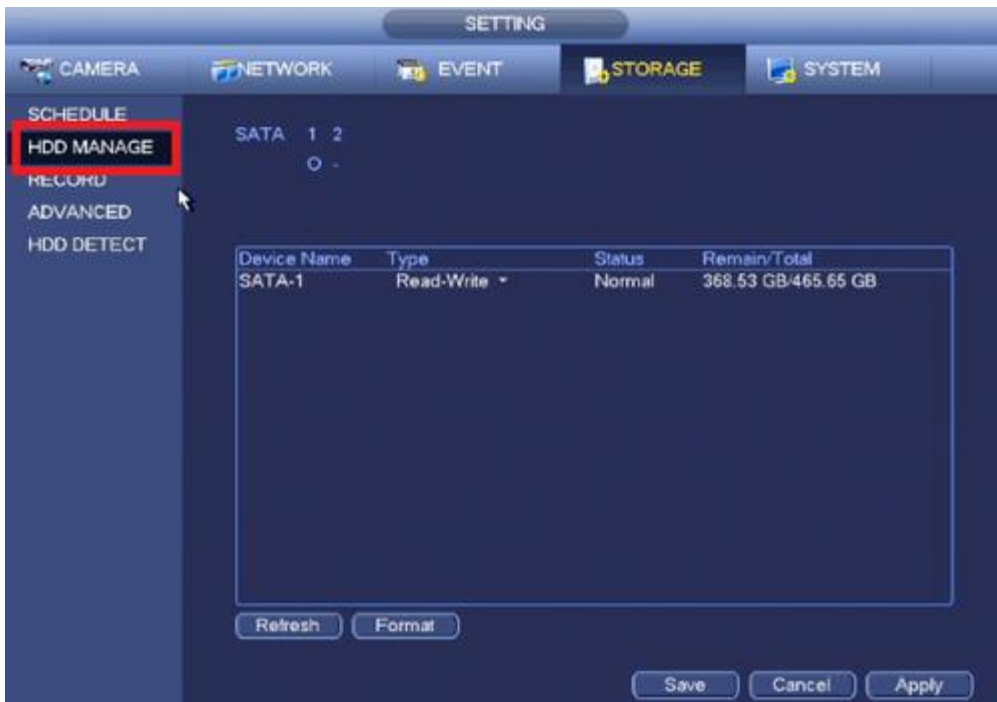

- A NVR or HDCVI DVR.
- A working HDD installed

Step by Step Instructions

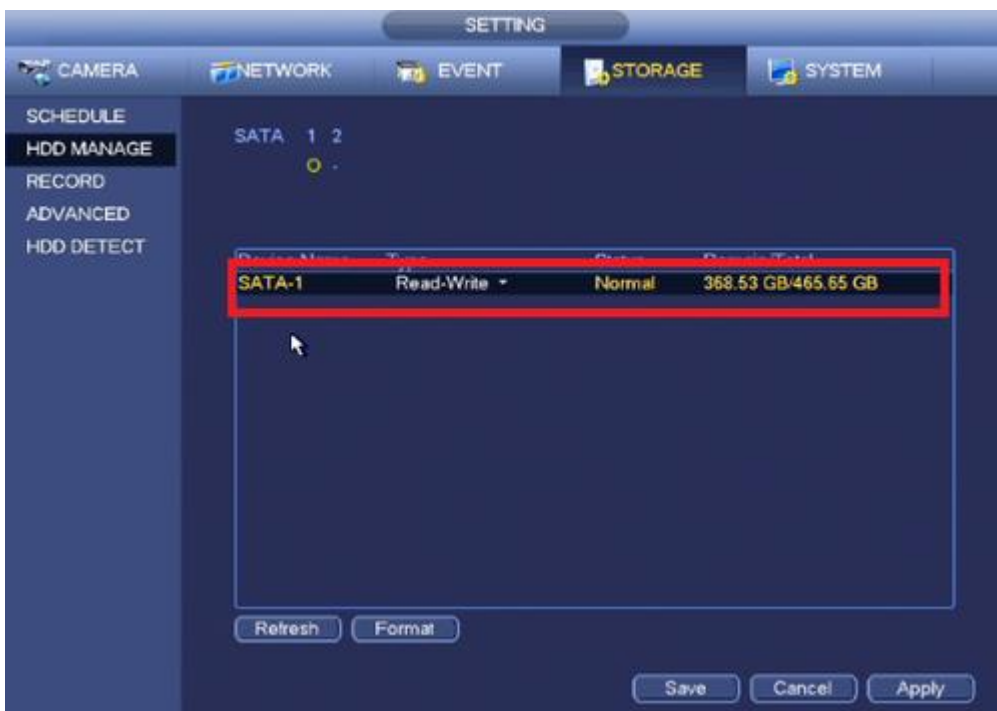

1. From the Main Menu Select Storage.

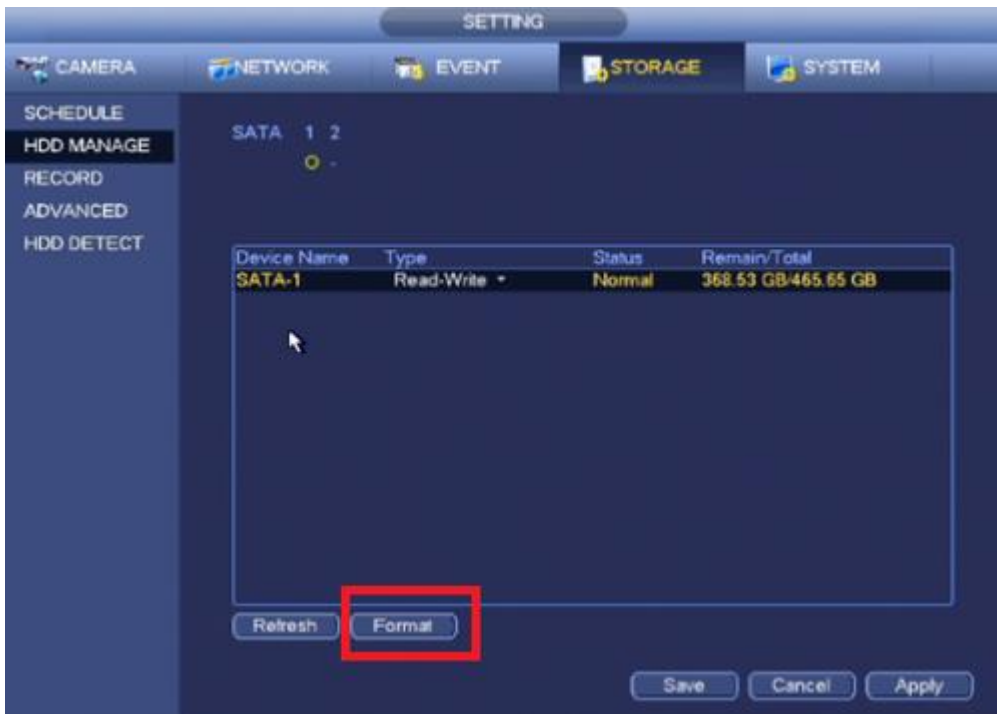

2. Select HDD Manage.

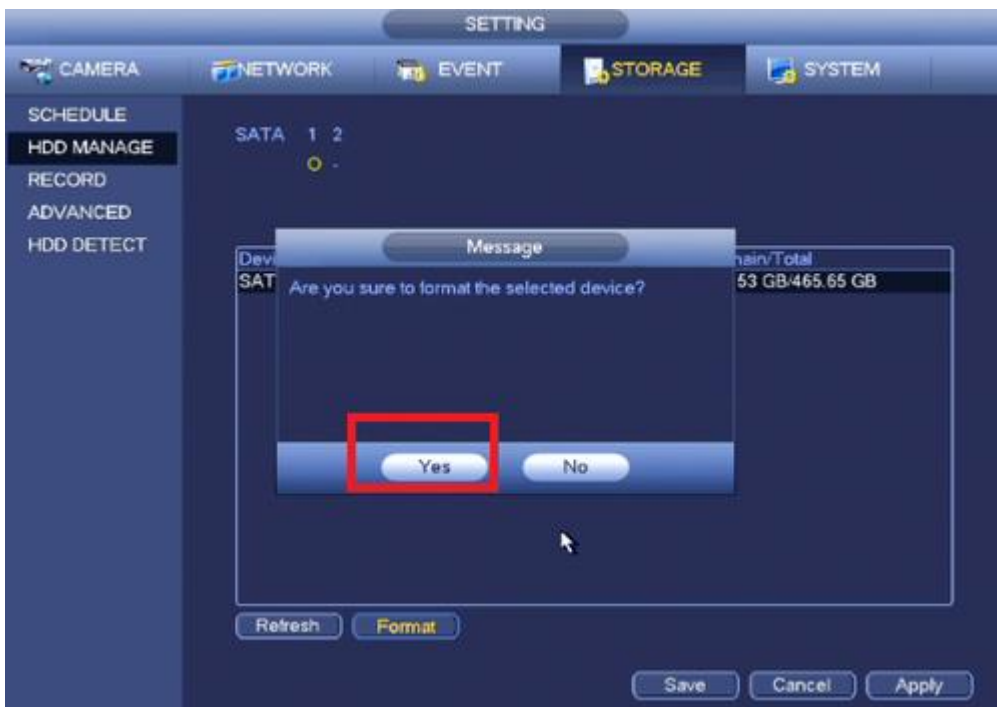

3. Choose HDD to format.

4. Select Format

5. Select "Yes" to verify format.

6. Click Apply → Click Save. Device will reboot after changes made.
