

Setup Audio Recording

Note: These instructions only apply to systems capable of recording audio. You will need a power microphone and power speaker for the best results.

Description

Record Audio in addition to video.

Prerequisites

- Camera with internal Microphone or RCA audio input, or DVR with RCA audio inputs
- External powered RCA Microphone
- NVR, DVR, or Camera with SD card

Step by Step Instructions

1. From the Main Menu, go to Setting->Camera->Encode

2. Click the box for, "Audio/Video"

3. Click, "Apply" and then, "OK"

4. If an audio source option is given, set the source as HDCVI then click apply
